EXPERIENCE

Software Developer

Oct 2024 - Present

Galaxy Property

Surabaya, East Java, Indonesia

- Develop and maintain Galaxy App using Flutter with GetIt and BLoC architecture, improving crash-free user sessions from 58% to 90%.
- Build and manage RESTful APIs and admin web systems using Laravel Livewire, ensuring seamless data integration across platforms.
- Implement CI/CD pipelines and automation practices, reducing overall development time by 50% and enhancing release efficiency.

Software Developer

Sept 2024 - June 2025

Aliflammim

Kuwait (Remote)

- Led a development team of 3 members in building Kuwait's Quran application using Flutter framework.
- Implemented robust state management solutions using Provider and BLoC patterns for scalable application architecture.
- Coordinated team workflows, code reviews, and sprint planning to ensure timely delivery of features.
- Developed cross-platform mobile application serving Islamic content and Quranic features for Kuwait users.

Android Developer

Jan 2024 - Jan 2025

Campaign.com

Jakarta, Indonesia

- Taking responsibility for innovative software architecture and implementing best practices using Kotlin, Java, and Dagger-Hilt.
- Developing the thank you and profile pages using Coroutines and Asynchronous Flow to optimize multiple API hits, reducing page load time by 50%.
- Implement Unit and UI test in JUnit test runner.
- Hands-on application of cloud messaging, including push notifications and in-app messages.

Founder & Android Developer

July 2023 - June 2024

Herbify Indonesia

Malang, Indonesia

- Reinforce herbify application with RESTful API call and working with JSON.
- Publish and maintain application on Playstore.
- Successfully gained 500++ user installs on the first month of Herbify app launching.

PROJECTS

Plantelligence

[\[Project Link\]](#)

- Built an interactive digital flipbook application using Laravel Livewire for real-time rendering and TurnJS for page-turning animations, delivering an enhanced user reading experience.

Virulearn

[\[Project Link\]](#)

- Developed a Learning Management System in collaboration with Inovasiin.Id to provide interactive virus education for high school students.
- Implemented responsive UI components using Bootstrap and Laravel Livewire for dynamic, server-side rendered content.

VRLaboratory

[\[Project Link\]](#)

- Engineered a VR-integrated Learning Management System using Laravel Volt and Tailwind CSS, enabling immersive laboratory simulations.
- Designed and implemented RESTful API backend services to facilitate seamless communication between the LMS and VR client applications.

Herbify App

[\[Project link\]](#)

- Led Herbal Telemedicine platform development for the herbal industry in Indonesia, leveraging machine learning image classification.
- Switching from MVVM Architecture to Clean Architecture and implement modularization for 3 weeks to provide a scalable application.

ACHIEVEMENT

Top 3 Best Capstone Project - Bangkit Academy 2023 [\[Link\]](#)

July 2023

- Successfully eliminated over 720 participating teams and secured IDR 140 million in funding from Google and Dikti.
- Led the development of the Herbify project with a team of 6 members for one month.

SKILLS

Mobile Development	Java/Kotlin, Android Studio, Flutter, Dart, MVVM, RxAndroid, JSON, XML
State Management	Provider, BLoC, Coroutines Flow
Web Development	HTML, CSS, JS, PHP, TailwindCSS, Laravel, MySQL, PostgreSQL
Testing & Tools	JUnit, Git, Version Control, Dagger-Hilt, CI/CD, PHPUnit
Soft Skills	Leadership, Communication, Analytical Skills, Problem Solving, Teamwork
